

SONG THIRTEEN

I've had a taste for travelling since I was a child  
Been round the world with my friends and family  
From Europe to the East to South America  
I just gotta keep moving on far

It won't be long Hong Kong till I'm with you again  
Making music in the streets of Sham Shiu Po  
It will be soon Kowloon, by the light of the moon  
That we'll sing a new song of freedom

Hey Mok, Hey Sally, Hey Wingo, Hey Chuen  
Make sure you write me into your next tune  
Hey Sally, Hey Chuen, Hey Wingo, Hey Mok,  
Just hope you're awake at this o'clock

Gotta make music, music in the community  
Music brings the life for all to see

It's not goodbye Shanghai, lets make a new plan  
Make music with the people of the city  
Lets make a show in Hangzhou by the Eastern Lake  
And find new melodies in the water

Hey Afra, Hey Flora, Hey Wailap and Vivien  
Just find me a project, just say when  
Hey Afra, Hey Flora, Hey Vivien and Wailap  
Although I'm pretty busy I'm sure I'll find a gap

Gotta make music, music in the community  
Music brings the life for all to see

I've had a taste for travelling since I was a child  
With my mate Andrew we went pretty wild  
At eighteen we discovered India  
Without much money and without a fear  
Keep travelling
